

Clearing An Error Report

The screenshot shows the 'Stanford Shared Facilities (support@badgerlms.com) Badger' application. The left sidebar displays a tree view of equipment under 'Stanford Nano Center', with 'FEI Nova-Nano SEM_snp*' selected and marked with an orange problem icon. The main window shows the 'Maintenance Record' for this equipment, with a table containing one record: a 'PROBLEM' reported on 2012/07/16 at 13:28:09 by 'support@badgerlms...' with the comment 'test lazer is down'. A callout bubble points to the orange icon, and another points to the 'Clear Comment/Problem/Shutdown' button at the bottom of the record.

Select the equipment that has error shown with orange icon. Then click Maintenance tab.

after selecting the problem click clear comment button.
